A Berrien Springs Young Man Gone Wrong

BANK OFFICIALS TAKEN IN

He Negotiates \$7000 Worth of Paper to Which His Father-in-Law's Name Was Forged

NILES, Mich., March 31,-The people of Berrien Springs and ricinity are greatly excited over the fast, just become public, that Samuel Bishen, a young man of that place, has perpetrated forgeries to a large amount. He has always been counted thoroughly reliable. There is said to be in existence \$7000 worth of paper to which he has forged the name of his father-in-law, Jacob Krall. Of this amount, \$2000 is held by the banks of Niles. The remainder is held by farmers near harries.

Berrien Spring.

Bishop's mode of operation was to negotiate joint notes signed by himself and purporting also to bear Krail's signature. It is now charged that the Krail signatures are not genuine. Both men have a high social and business standing. Up to noon today no arrests bad been made.

STATE SWAMP LANDS.

The Final Report of the Local Commissioners Accepted.

Lansino, March 31. - The state swamp land board today approved the report of the local commissioner

the report of the local commissioner acepting the state road on Bois Blanc Island, and the land commissioner instructed to issue patents therefor to Contractor Wester of Ionia.

It remains to be seen whether Commissioner Shater has the "sand" to refuse, until compelled to, by a mandamus from the supreme court as he has frequently sated he would do, or whether he will gently submit. It was not very long size Chief Justice Morse, in an opinion lenging a mandamus in an opinion lenying a mandamus upon another fature of this case, indulged in some very caustic language in critic sing the methods prevailing in connection with this road, and it is quite probabilithat if John C. Blanchard of Ionia wre to write of what he knows of hoesteadary and the gospel of road building in Bois Blanc Island the public waid be much wiser than

WARDEN'S COACHMAN.

A Murderer liven Liberties That Cause Auch Comment.

JACKSON, March 31 .- for some time past it has been noticed by parties who know him, that David Stone, a convict who was sent to the prison some five or six years ago from Hillsdale county

or six years ago from Hillsdale county on a life sentence, has been acting as Warden Davis' coachman, and considerable feeling is expressed to the effect that it is not only unasfe but a mockery of justice.

Stone was convicted of outraging and then murdering his title niece in Hillsdale county, the circumstances of which were so aggravating that it was with difficulty the officers prevented his being lynched. After his sentence to the state prison for the remainber of his natural life, this feeling of revenge was so prolife, this feeling of revenge was so pro-naunced among his former neighbors that he sheriff found it necessary to place Stone in a back at night and secrety convey him from the Hillsdale

Hints from Holland.

Holland, Mich., March 31 .- The Ctiawa County State Teachers' institute was held here this week conducted by W. H. Herritt, assisted by D. E. McClure. The institute closes to-day and has been a great success. Prof. Hewitt's psychology instruction has never been equaled in this county. D. E. McClure's spelling contest was instructive and enjoyable as were the lectures given by these gentlemen. County Commissioner Lillie was much helped in the institute.

Three Killed in Four Days. Post Busos, Mich., March 31 .- T. R. Mitchell, a prominent stock raiser of Blythe, Ont., was run over and killed by a west-bound emigrant train this morning. He was taking a valuable horse to Sag naw and was crossing the track at the time. This makes the third accident of the kind within four days at the tunnel yards. All the bodies are at the morgue.

WAVES WITHOUT WIND.

Immesee Upheavals of the Ocean from Mysterious Causes.

Occasionally there appears a great wave sweeping across the calm surface of the ocean in the fairest weather, and when no wind is blowing. There are few perils of the sea, says the Philadelphia Times, more to be dreaded than such a wave. Fortunately they are very rare, yet more than once a ship has encountered one. Only a short time ago the Etruria was met by a wave of this kind, which rolled upon her like a wall of water, and breaking against her sides, swept the deck with irresistible force, killing one sailor and seriously injuring others.

A smaller and less staunch vessel might have been overwhelmed and sent to the bottom by the blow.

The cause of these singular waves is believed to be some disturbance of a volcanic nature at the bottom of the sea. Volcanoes exist in the ocean as well as on laud; in fact, nearly all the volcanoes known are on or near the seaconst. It is easy to see that an upheaval at the sea bottom may start . billow at the surface of the water when we remember that huge waves have been sent clear across the Pacific ocean to San Francisco by volcanie shakings

of the earth on the borders of Asia. The world under water is not only three times as extensive as that which is covered only with air, but it possesses many of the same great natural phenomena on a scale that is perhaps proportionately vast, but of whose exsuch indications as the volcanic ocean waves that ships occasionally encoun-- --
